Staff Product Designer with 12+ years designing enterprise B2B SaaS for hybrid cloud and infrastructure. 0-to-1 launches that turned complex technical requirements into intuitive products for 300,000+ enterprise customers and millions of administrators. Recently exploring agentic AI through Nexus, a self-initiated prototype.

ENTERPRISE · B2B SAAS · HYBRID CLOUD

Experience

Broadcom | Palo Alto, CA

Staff Product Designer / Dec 2023 – May 2026

- As design lead, I owned the UX strategy for rebuilding migration planning in VCF Operations as the legacy Net Ops UI was retired. A major bank's 80K-VM migration: 3 months → 25 days; CSAT 65→92.
- Co-defined the Global Mobility Service vision with the PM and eng architect; designed concepts for executive review.

VMware | Palo Alto, CA

Product Design Manager / Nov 2020 – Nov 2023

- Directed design strategy across a distributed US/India team of up to 12 designers; shipped 15+ major features for the VMware Cloud portfolio.
- Established a design-ops framework by standardizing handoffs and async reviews, increasing overall team efficiency.

Senior Product Designer / Aug 2018 – Oct 2020

- Led end-to-end design for the v1.0 launch of VMware Cloud on Dell; reduced procurement time from 2 months to 15 days (4×) and increased user satisfaction by 23%. Built Global Fleet Management keynote demo for VMworld 2018.
- Created the service-blueprint-first methodology later adopted by VMware Cloud on AWS Outposts.

Product Designer / Feb 2014 – Jul 2018

- Overhauled 7+ core vSphere lifecycle functions; simplified vCenter High Availability setup for millions of admins with a single unified workflow (vSphere 6.5).

Tata Consultancy Services | India

Systems Engineer / Mar 2010 – Aug 2012

- Built and supported life & pension administration systems for a leading UK BPO client; performed risk management and ran business-continuity drills.

Independent Project

Nexus Agentic AI: Multi-Agent Control Plane / 2026

- Designed and built a working front-end prototype for a multi-agent control plane for autonomous server patching — human-in-the-loop orchestration via Critic Agent escalation, transparent agent intents, and a chronological audit trail.

Education

University of Michigan | Ann Arbor, MI
M.S. Information, HCI / 2012 – 2013

Nagpur University | India
B.E. Electronics / 2005 – 2009

Skills

Design & UX
Product & Interaction Design, UX Research, Service Blueprinting, Design Systems, Accessibility

AI & ML
AI-Driven UX, Agentic AI, Multi-Agent Systems, Human-in-the-Loop Design, LLMs, AI Prototyping, Claude Code, Claude Design, Lovable, Gemini

Domains
Enterprise & B2B SaaS, Hybrid Cloud, Infrastructure, Observability

Tools
Figma, Sketch, Miro, FigJam

Code
HTML, CSS, Front-End Prototyping

Recognition

VMware Hackathon — Award Winner, 2020
